

# ***!Class Shopping survey!***

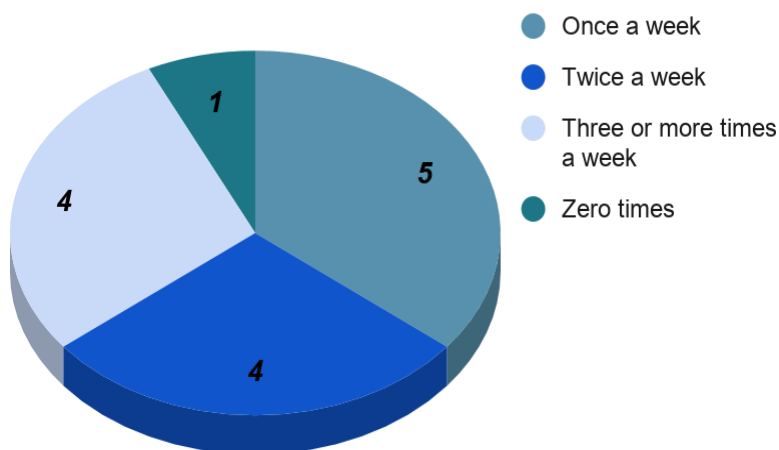

I asked fifteen people in my class questions about shops. There are the results.

## ***My classmates favourite shops.***

*The favourite shop of the majority of my classmates is a clothes shop. A few prefer sport supplies, and only one person prefers book shops. Six classmates like others.*

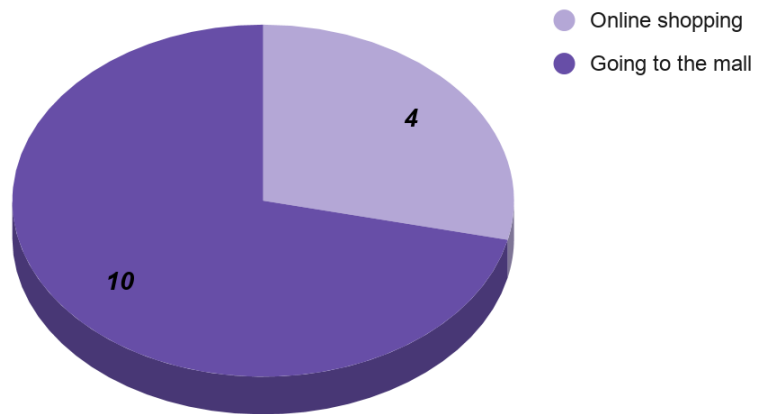

## ***How often do my classmates go shopping this week.***

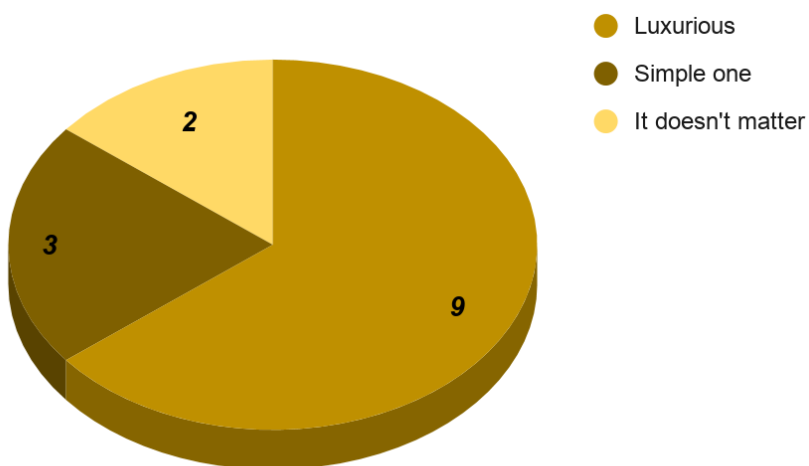

*Most of my classmates go shopping once or twice a week. A few prefer three or more times, and one person never goes shopping.*

### *What do my classmates prefer.*

*More than a half prefer going to the mall, and only few prefer shopping online.*

### *Which kind of shops do my classmates prefer more.*

*More than a half of my classmates prefer luxurious, a few prefer simple one, and only two don't care what the shop looks like.*
