

I interviewed 11 of my classmates about movies and movie genres and there are the results

My classmates favorite movie genres

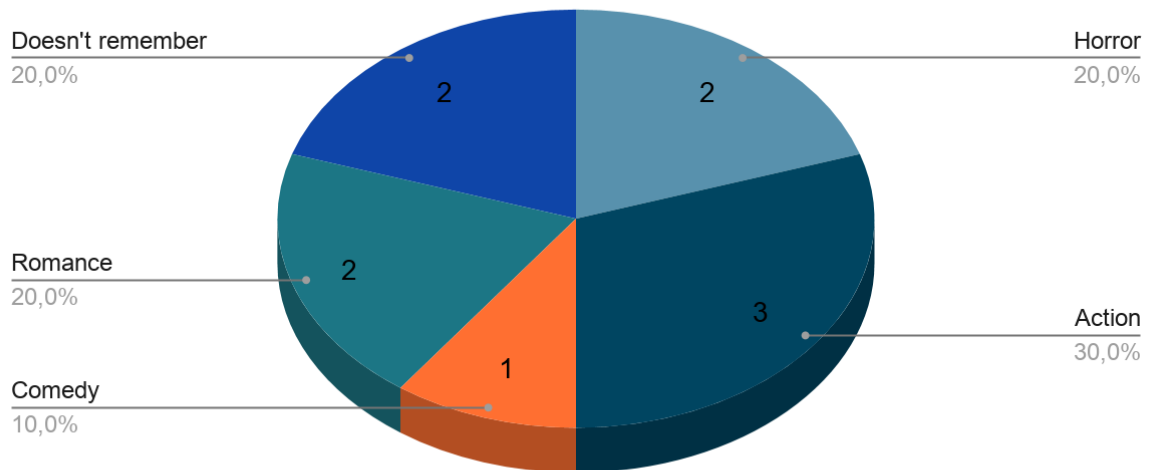

In the first question I asked my classmates for their favorite movie genres. Most of my classmates prefer watching comedies. Only one person likes watching action movies and two people each watch romantic movies, fantastic movies and horror movies.

Do my classmates often watch movies

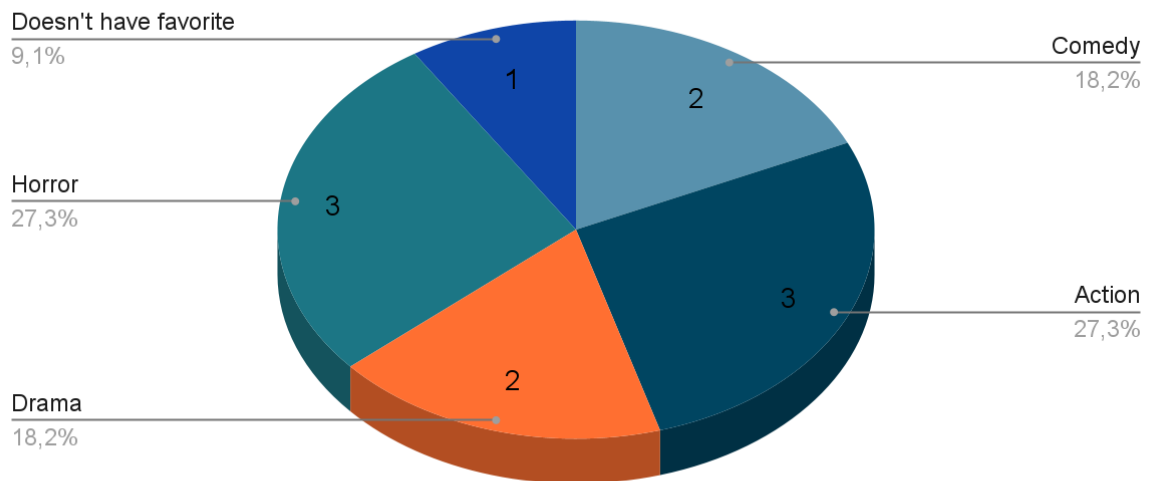

In the second diagram I asked them if they watch movies often. Almost all of them watch movies pretty oftenly. One person doesn't watch them a lot, and the other person almost doesn't watch any movies.

What was my classmates last watched movies genre

In this diagram I asked my classmates their last watched movie, and I got information from the internet and figured out their last watched movie's genre. The majority of my classmates watched action movies, one person watched comedy, two people each watched romance and horror movies. The last two don't remember their last watched movie.

Favorite movie genre

In the last diagram I asked them what was their favorite movie's genre. In the first quarter of my class, they like horror movies, in the other quarter they like action movies. Two people each like comedies and drama movies, and the last one doesn't have a favorite movie.
